Sciences

TMA4212 Num.diff.  
Spring 2020

**Exercise set 3**

This exercise is only composed by a few old exam questions on FEM.

We will not prepare any special solutions for these.

- June 2018, problem 3.
- May 2015, problem 4.
- May 2017, problem 1 (note the somewhat stricter bound for the interpolation error).
